CCH Systems
for Public Safety

Computerized Criminal History and Offender Registry Solutions

Communicate critical information about offender history across agencies, jurisdictions, and states with equivant's CCH and Registry Solutions. These solutions can stand alone or be coupled with any type of offender registry your state mandates.

Government agencies can:

- Implement a proven, standards-based solution supporting dot-slash, NIST EBTS, and XML-based transactions

- Reliably transform messages to and from partner formats

- Provide secured access to partners and public or private organizations

- Integrate with AFIS systems and/or any number of public safety switches

- Adapt the system to the ever-evolving needs of the court

MAINTAIN COMPREHENSIVE, HIGH-QUALITY CRIMINAL HISTORY RECORDS AND ENSURE PUBLIC SAFETY WITH CCH SYSTEMS
