equivant Enterprise Content Management

Simplify and Automate Vital Office Functions

Boost the efficiency and effectiveness of agency operations with a browser-based enterprise content management solution that simplifies and automates vital office functions.

The solution captures almost any file type, paper, or electronic. It provides straightforward document scanning, storing, and retrieval with powerful version control functionality—making tracking and auditing changes easy.

Enterprise Content Management Solution Delivers:

- Simple but powerful document management and media file (image/video/audio) features

- Secure eSignature with smart workflow providing alerts and reminders for efficient routing to required signers

- Redaction capabilities to meet various privacy requirements

- Seamless integration with existing case management systems (CMS)

KEY FEATURES:

View PDF, TIFF, and MS Word files directly in CMS

Workflow automation rules with alerts and reminders

Search, append, and comment easily

Assign and control security permissions for different users and roles

---

KEEP JUSTICE MOVING EFFICIENTLY WITH OUR ENTERPRISE CONTENT MANAGEMENT SOLUTION
