

Jury Process Manager

|| Web-based Jury Solution

KEY FEATURES:

Configurable jury summons

Comprehensive juror service deferral process and jury term creation

Annual randomized juror draw based on user-entered requirements

The web-based Jury Process Manager (JPM) solution provides robust functionality in a hosted solution for courts and clerks. The solution allows the client to customize codes to meet their needs.

With JPM you can:

- Update and create questionnaires using templates and have them filled out online
- Send juror notifications via email or text
- Allow self-check-in from the portal in the courthouse
- Create and configure payment with tiered pricing for one or multiple jurors
- Manage available jurors during voir dire with the seating chart
- Configure code setup for specific courts
