

Online Dispute Resolution

Quickly and efficiently resolve disputes online

KEY FEATURES:

Centralized and secure evidence repository

End-to-end encrypted messaging and live video conferencing

Quick digital proposal, settlements, and decision drafting technology

Role-based access control

Online Dispute Resolution (ODR) reduces the cost per case and increases public redress by providing direct online access to all parties throughout an integrated pathway to dispute resolution.

With ODR, courts can:

- Automate case resolution workflow and task creation for negotiations, mediations, hearings, and trials
- Search key case data and evidence rather than sifting through emails and PDFs
- Collaborate with disputing parties, attorneys, mediators, and judges within a secure portal
- Easily store case details, evidence, and decisions/settlements
- Quickly resolve disputes while focusing on collaboration, trust, effectiveness, and flexibility

MAKE JUSTICE EFFORTLESS AND ACCESSIBLE WITH ONLINE DISPUTE RESOLUTION
