

# ShowCase

## Case Management

### || Keeping Florida Courts Running at Peak Efficiency

#### KEY FEATURES:

Imaging features for scanning and saving documents electronically

Document filing, indexing, and management

Arrays of data views to optimize how information is displayed

Easy-to-use calendar

Real-time case information updates

ShowCase is a highly-configurable Case Management System built specifically for Florida Courts. Increase workload efficiency and timeliness with automated workflows, document imaging, In-Court Processing, and sophisticated document management.

Court personnel can:

- Use Smart Docketing to trigger entire processes with a single entry
- Simplify the way judges find, view, and manage cases with In-Court Processing
- Easily pinpoint critical information with extensive search capabilities and document linking
- Seamlessly integrate data from other agencies with Data Exchange Services
- Adapt the system to the ever-evolving needs of the court
